## PAINTERS' SUPPLIES.

---

Once more we greet our friends, and present to them our Price List for 1877. We have taken great pains to make it complete in every part, and think that we have now in our store about every thing that can properly come under the head of "Painters' Supplies." Since our last catalogue was issued, we have removed to the new and spacious store, No. 76 Washington Street, (running through to No. 52 Friend Street), and, with our Storehouse at Nos. 104 and 106 Fulton Street, have much more commodious quarters than formerly; and we think that our friends will find them more convenient to reach, as horse cars from all the depots pass our doors, or very near us.

In addition to the goods which we handled at our old stand, we have now a full assortment of all materials used by Artists, Architects, Draughtsmen, and for the manufacture of Wax Flowers, together with a fine assortment of Tooth, Nail, Hair, Cloth, Shoe, Stove, Scrub and Horse Brushes, which we offer at very low prices.

We have issued a Price List of Artists' Materials, which will be sent free on application.

---

## TRANSFER ORNAMENTS.

---

In our 1876 Price List, we gave a carefully prepared list of Transfer Ornaments, selecting from the designs of the different manufacturers those which were most desirable on account of price and quality, and it seems hardly necessary for us to repeat it this year. We have issued a supplement giving the new sheets which have been printed since our list was made up, and also naming those numbers which are now out of print. The supplement will probably be mailed with this catalogue, but, if any of our customers do not receive one, we shall be pleased to send it on application.

We shall continue to receive the new designs as fast as issued, and shall always be happy to show our very large assortment to all who will favor us with a call.

Per lb., \$6.00; per oz., 65 cts. Mixing Liquid, per bottle, 25 cts.; per gallon, \$6.00.

This Striping can be obtained only of our house, as we have it made to order. It is the finest in the market, a very close imitation of extra deep gold, and the only Striping that we know of which will retain its brilliancy under varnish. It is so fine that it will cover much more surface than the ordinary, and therefore is cheaper as well as better. It has obtained a very high reputation in the short time during which it has been in the market, and no carriage or ornamental painter can afford to be without it. It is also much liked by manufacturers of Picture Frames. It should always be used with our Mixing Liquid. We can furnish a lighter shade of the same quality if desired.

Burnt.....by barrel, “ .06; keg, .07

Burnt.....in bulk, “ .08

These Umbers are used in place of English Filling, and by many are considered superior. They are also much liked as a substitute for lead, as they rub easily, and make a smooth, solid body. The Burnt makes a good ground for lakes. We will send Samples when desired.

## KEYSTONE FILLING.

Barrels, per lb..... .05      Kegs..... .06      Less..... .07

This is an excellent filler; takes but little oil, and rubs easily and well. As it is black, it is much liked for work that is to be finished in black.

## FRESCO STENCILS.

Cut in Prepared Stencil Paper.

We have lately received a large assortment of choice designs, which will please the most fastidious Artist. Persons who have heretofore cut their own will find these a great convenience, while to those not skilled in the business they will be indispensable. We shall always be pleased to show samples. The prices range as follows, viz.:

Borders, from .25 to .75. Corners, .45 to \$1.00. Centre Pieces, .65 to \$1.25

They can be safely sent by mail, and we will use our best judgment in making selections if the choice is left with us. It would be well to state size and style of design when ordering.

These colors are finely ground in water (many of them are original pulp colors), and put up in bottles of a uniform size, which contain from 1 to 1½ lbs. of color. They will be a great convenience to all who use colors in distemper.

## FRESCO SIZE.

Per gal.....\$2.00

Intended for sizing walls instead of "Glue Size," before the colors are applied, in order to prevent suction. Will not peel or spot, which other sizes are subject to, arising from dampness. Is very light in color and easy working. Reduce with "Spirits Turpentine," should it become thick in consequence of evaporation. Apply with a brush.

## J. W. MASURY'S SUPERFINE COLORS.

GROUND IN JAPAN.

So great is the advantage of Masury's Patent Mill, combined with his life-long experience in the color business, that these colors still stand pre-eminent as the standard carriage colors throughout the United States and Canadas, and are now exported in considerable quantities to other countries, including England, from whence we receive many of our best dry colors. Owing to the increased demand, Messrs. J. W. Masury & Son have lately been obliged to re-arrange their factory and put in more mills, and they assure us that no pains will be spared to keep up the present high reputation of the colors and make them more perfect, if possible.

We are still the sole agents for the sale of these goods in Boston, and keep on hand a full assortment of the colors in Masury's Patent Cans, for use with his press, and in the ordinary thin-top cans and pails, which we can supply at bottom prices.

Sample books, containing all his new colors, will be sent free on application.

Notwithstanding the great number of green paints in the market, our customers still pronounce our Emerald to be the best that they can find. For *fineness, body, durability and color*, we believe that it is unexcelled by any green in the market. Our Forest Green, although sold by us at seventeen cents per lb., is really a good article, and fully equal to any other green in the market, excepting the Emerald. Those to whom the difference in price is an object should give it a trial. Sample cards of Emerald Green sent on application.

## WHITE LEADS IN OIL.

Foster, Blackett & Wilson's English.....in 1, 2 and 3 cwts.

This lead is imported by us, and warranted genuine. It is one of the best brands of English lead. Price as low as can be afforded.

Atlantic, in 12½, 25 and 50 lb. buckets, and 1, 2, 3 and 5 cwt. kegs.....per lb. .10; in 25 lb. pails, per lb. .10½

The Atlantic still keeps up to its former high standard, and is unexcelled for whiteness and fineness. The Atlantic Lead Co. buy the best Pig Lead, and then refine it themselves, thus giving it extra purity, and we believe that this is done by no other Corrodors of lead in this country, although it is done by most English Corrodors.

Western White Lead Co.'s, in 25 and 50 lb. buckets, and 1, 2, 3 and 5 cwt. kegs.....per lb., .09 $\frac{3}{4}$

This lead is not excelled by any Western lead in the market, and is put up full weight.

W. Bros. & H's English Lead.....in buckets and kegs, .09 $\frac{1}{4}$   
 “ “ “ .....in 25 lb. tin pails, .09 $\frac{3}{4}$

This has been a standard lead with us for many years, and it is generally considered by those who use it that no lead is more durable. It is fine, white, and has a good body. Put up in 25 and 50 lb. buckets and 1, 2 and 3 cwt. kegs.

Newton Lead.....in buckets and kegs, .08 $\frac{1}{2}$   
 “ .....in 25 lb. tin pails, .09

This is also a standard brand with us, and will be found fully equal to any lead in the market at the same price.

Mt. Vernon Lead.....in 1, 2 and 3 cwt. kegs, .07 $\frac{1}{2}$   
 “ “ .....in 25 lb. tin pails, .08  
 “ “ .....in 12 $\frac{1}{2}$  “ .08 $\frac{1}{2}$

For whiteness, fineness, body and durability, we believe it to be unexcelled by any in the market at the same price. It has a high reputation among the large number who are using it.

Crystal Springs Lead.....in 1, 2 and 3 cwt. kegs, .06 $\frac{1}{2}$   
 “ “ “ .....in 25 lb. tin pails, .07  
 English Paris White, in oil.....in 1, 2 and 3 cwt. kegs, .06 $\frac{1}{2}$

### LEAD IN ASSORTED CANS.

Put up in 100 lb. Cases. 1s to 5s, or 1s to 10s.

Zincs ground in Poppy Oil to order at a cost of one cent per lb. extra.

Pearl White, same as Florence & Constant White.....per lb., .22

## BAY STATE COLORS OR TINTED PAINTS.

These colors are now so well known in this vicinity that it seems needless for us to take up much space to explain their merits. We have yet to hear of the first job done with them which did not give perfect satisfaction, and we are satisfied that they are the best paints in the market that have been tested by time. Our sample cards now give the colors in their natural gloss, (they are not varnished) which shows the colors more as they look when used, than those which we have heretofore distributed.

In 100 lb. kegs, or 25 lb. pails.....per lb., .10

Sample cards sent free on application.

Sample cards, giving samples of the first twenty colors, will be sent free on application, and these colors can be furnished in 10, 15, or 20 gallon kegs, at \$1.95 per gal., or in half-bbls., and bbls., at \$1.90 per gal. No charge for packages.

Mr. Masury tells us that he has experimented much during the past seven years in Liquid Paints, and has at last produced some which give himself perfect satisfaction. They have an unequalled body, and a splendid gloss, dry well in damp or very cold weather, are very elastic and seem to combine all the good qualities of paints mixed by hand, while they have the great advantage of being ready for use, and the greater advantage (which our Bay State colors have) of the color's being so thoroughly incorporated in the paint that it will not spot, and will fade so evenly as to hardly be perceptible.

We know that Mr. Masury is very careful not to put anything on the market until he is satisfied that it is all he claims it to be, and we therefore advise our customers to give his Liquid Paints a trial.

# VARNISHES.

We are much obliged to our customers for their generous patronage during the past year, and shall endeavor to deserve it in the future. We have lately fitted up a varnish room at our storehouse (Nos. 104 & 106 Fulton St.) and have much better facilities for ripening varnishes than we had at the old store. We shall continue to give this branch of our business a great deal of attention, as we are satisfied that in connection with our Paint Trade, we can *make* and *sell* varnishes at a less cost than parties who do an exclusive varnish business. Our Wearing Body and Medium Drying Body are made of the best stock that we can procure, and cannot be excelled in that respect by English varnishes. Our Rubbing Varnish has won golden opinions during the last two years. To suit all kinds of work we have now ready two kinds of this varnish, viz., a Slow Drying and a Quick Drying Rubbing, both of which are made of the hardest gums that we can procure. We have also made up a lot of Elastic Carriage and One Coat Coach Varnish from all Zanzibar Gum (we do not think that there is anything of the kind now in the market), and shall offer it, as soon as it has ripened, at our regular price for those grades. We believe it to be much the cheapest varnish in the market. Our other grades will be kept up to the standard of the past year, and we shall spare no pains to please our customers. Our prices will always be as low as any for the same quality of goods, and we assure our customers that they can make no saving by buying of parties at a distance.

DELICACY OF VARNISH.—Mr. F. B. Gardner, in his prize article upon the "Care of Varnish Brushes," makes this excellent remark: "Varnish, as a general thing, is *delicate in its choice of company*. A little turpentine, a little oil, or a little of anything, except of its own kind, will make it liable to pit, or crawl, or flake, or cut up some caper, and that *dangerous little* is frequently supplied by putting into a varnish-cup a brush from a bath of another liquid."
